

It was established in 2004 to operate in health field with together pharmacists, physicians and investors. The first products which was produced with the vocationally knowledge and experience from years moved to the market in 2005. This products has been followed by innovative and pioneer products.

In the intervening years, we expanded our portfolio and market share and reached over 80 product types. We are working with the consciousness and responsibility of offering our products for the protection of human health to the end consumer. In October 2012, we established our own factory to meet our increasing sales volume (NUVITA).

Once we reach our target market share in Turkey we have accomplished of the 'Opening to Global Markets' project which is a part of our goal after. We have started marketing activities to Ocean Fish Oil which is the leader of the omega-3 market in Turkey mainly, Cosakondrin, Imunol, Bigflor, Efervit and other trademarks of Ocean products in Moldova, Romania, Belarus, Kosovo, Vietnam, Jordan, Palestine, Syria, Somalia, Iraq and Lebanon and we are working to create new markets.

We became leader of the OTC products in 2018.

OMEGA 3

## Why is omega-3 so important?

Fats which are an indispensable source of energy for life, not only produce energy, but also takes place in our cells, as many hormone and hormone-like structures.

The most important fatty acid is Omega-3. Omega 3 fatty acids, which are the basic need of the body for a lifetime, should be taken from reliable sources at the correct concentration.

---

## Why Ocean brand is everyone's number one choice in Omega 3?

---

Because Ocean fish oils are produced in accordance with international quality standards.

EPA (Eicosapentaenoic acid) and DHA (Docosahexaenoic acid ), one of the important Omega3 fatty acids found only in fish and other marine organisms (shrimp, cuttlefish, algae, etc.), proved to be beneficial for the cardiovascular system, brain, eye, skin, joints and cancer.

- 1** Fish oil is processed within 24 hours within the scope of EU\* freshness and hygiene standards.
- 2** Solvents and chemicals are not used, mechanical methods are preferred.
- 3** Separated from all impurities by molecular distillation
- 4** High deodorization technique to remove fish taste and odor.
- 5** Stability is achieved by using natural antioxidants.

\* EU : European Union

# OMEGA-3 in INTERNATIONAL QUALITY STANDARDS

Purity and quality of Ocean's is testing by **IFOS ( International Fish Oil Standards)** which is indepented Canadian institutions.

Ocean Fish Oil;

is analysed according to determinated limit volumes and be offically registered 5 stars by the Council for **Responsbile Nutrition (CRN) and World Health Organization.**

PURITY • FRESHNESS • RELIABILITY • QUALITY • CONTENT GUARANTEE
