creavit[®]
the bathroom

THE WORLD IS SUSTAINABLE!

At **Creavit**, we fulfill our responsibilities to create a sustainable production and consumption ecosystem. As we shape the future, we conduct our activities with the vision of a more livable world. To achieve this, we transparently present our sustainability actions and define a significant roadmap with the **Creavit Green Strategy**. This strategy serves as a guide, reflecting our evolution in harmony with the environment by integrating sustainability trends into our daily lives. Through this approach, we emphasize how small changes can make the world more livable, highlighting that micro actions lead to macro results.

**ZERO
WASTE**

creavit[®] GREEN STRATEGY

By creating innovative products that utilize natural resources efficiently, we achieve savings in both production and consumption. Through our R&D and design teams, we are building a sustainable future with water and energy-saving, recyclable products. We prioritize efficiency from raw materials to the final product to align our production culture with environmental harmony.

We approach sustainability holistically through our memberships and certifications, acting on the principle of “consume as much as you produce.” As a brand that actively takes steps on social and environmental issues, we aim to align human activities with nature and human nature.

As a bathroom brand, we take the most effective measures to protect water resources in the face of threats like climate change, global warming, and water pollution, ensuring sustainable water consumption. With this commitment, we are designing a green future and working towards a more livable world.

We are redefining hygiene standards in the bathroom from the ground up. With our innovative approach, we create hygienic surfaces in sanitaryware products that meet user needs and expectations. By integrating practical solutions like built-in bidet faucets and easy-to-remove toilet seats, we elevate general hygiene standards and offer a perfect bathroom experience with our advanced surface technologies.

creavit[®] HydroGlide

With our developed HydroGlide technology, we create a chemical coating on sanitary surfaces, making them easier to clean and maintain hygiene. This technology ensures easy-to-clean surfaces while offering the advantage of using minimal cleaning agents and water

creavit[®] UltraClean

With our UltraClean technology, we elevate microscopic-level smoothness and antibacterial hygiene standards. Thanks to its special glaze coating, this technology prevents dirt, bacteria, and microorganisms from adhering to surfaces, maximizing cleaning convenience.

creavit[®] SafeTouch

SafeTouch technology offers a healthier experience by preventing bacterial growth with its unique structure. This innovative approach transforms hygiene perceptions, making a significant impact not only on surfaces but also on users' quality of life. With its special outer coating, SafeTouch reduces bacterial presence by %,99.9, ensuring a cleaner bathroom experience.

LEVEL

Levt, which introduces innovation to the bathroom, redefines the smart bathroom experience with its innovative design and user-focused features. Notably, the **Level** is the first in Türkiye to offer a heightadjustable sink module, along with other functional features. It combines aesthetics with ease of use, elevating bathroom comfort to the highest level.

First in Türkiye Adjustable Height in Bathroom Furniture

Button for height adjustment

Two Color, Two Style

This furniture, designed to enrich modern bathrooms, comes in two stunning color options: **Palazzo and White**. Offered with a sleek surface option, it perfectly complements both classic and contemporary decoration styles. The natural look of Palazzo and the sophisticated simplicity of White will add a unique character to your bathroom. Minimalist in its simplicity, **Level is designed to appeal to all tastes.**

Hydromassage

Water therapy has been used as an alternative treatment method for centuries. The relaxing and refreshing power of water creates positive effects on the human body and psychology. Creavit's bathtubs with hydromassage system help to regenerate spiritually and physically by combining the refreshing power of water with high technology systems.

Hydromassage accelerates blood circulation and contributes to the removal of toxins from the body. At the same time, the contact of the body with water in the form of a massage stimulates the nerves. Thus, it helps to relieve some pain and get away from the stress of daily life. After sports activities or at the end of a tiring day, hydromassage is very effective in resting and regenerating the human body and provides mental relaxation.

Hydromassage Control System

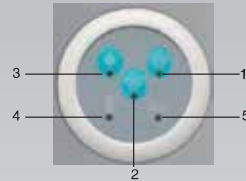

EKO 1 PNEUMATIC CONTROLLED SYSTEM (WHIRLPOOL)

- 1- 3 on/off push button
- 2- Air Turbulence Regulators

6 whirlpool jets (maxi jet) (white ABS, Chrome or gold finishing on ABS)
 Pump Power : 800 watt
 Voltage : 220-240 v
 Water massage – Continious
 Water level sensor
 VIEGA controlled or uncontrolled siphon
 Single function control button (chrome / white / gold over brass)
 Two air regulation valve (chrome / white / gold over brass)
 This system can be applied in all models (except TRITON) (for details please refer to functional system table)

EKO 2 DIGITAL CONTROLLED SYSTEM WITH UNDISINFECTION (WHIRLPOOL)

- 1- Digital on button
- 2- Digital off button
- 3- Led level sensor
- 4- Water level sensor
- 5- Air turbulence pcsjustment (+-) (air level)

6 whirlpool jets (maxi jet) (white ABS, Chrome or gold finishing on ABS)
 Pump Power : 800 watt
 Voltage : 220-240 v
 Water massage – Continious
 Water level sensor
 VIEGA controlled or uncontrolled siphon
 Digital control panel : (White ABS)
 Push button control (ON/OFF)
 Push button air regulation (+-)

EKO 2 DIGITAL CONTROLLED SYSTEM WITH DISINFECTION (WHIRLPOOL)

- 1- Digital on/off button
- 2- Led , Water level sensor
- 3- Digital air regulator from min to max
- 4- Led cleaning fluid
- 5- Disinfection button with led signaling on state

6 Whirlpool jets (maxi jet) (white ABS, Chrome or gold finishing on ABS)
 Pump Power : 800 watt
 Voltage : 220-240 v
 Water massage – Continious
 Water level sensor
 Digital control panel : (White ABS)
 Push button control (ON/OFF)
 Push button air regulation (+-)
 This system can be applied in all models. (Except TRITON)

(For details please refer to functional system table)

TURBOPOOL SYSTEM WITH REMOTE CONTROL SYSTEM (WHIRLPOOL + AIRPOOL)

ED

- 1- Hydromassage pump (ON/OFF)
- 2- Blower (air massage) (ON/OFF)

A New Era in Touchless Hygiene

What has touchless technology added to our lives in the bathroom?

In today's world, the concept of touchless hygiene for bathrooms has gained significant importance. Contactless automatic systems provide a hygienic experience for bathroom users by reducing the risk of infections.

Sensor-activated faucets and soap dispensers eliminate the need for users to touch fixtures and soap dispensers.

Moreover, the use of products like toilets that do not require contact has further elevated hygiene standards. As a result, the bathroom experience has become much safer and more comfortable.
